- Experienced in using essential tools and technologies like **Git**, **Docker**, **Dapr**, **JIRA**, **Azure**, and **DevOps**.

## SKILLS PROFICIENCY

- Participated in agile development processes, including sprint planning, daily stand-ups, and retrospective meetings.
- Proficient in Angular framework (Angular 14+) including best practices, design patterns, and architectural principles
- Familiarity with Angular Elements for building reusable web components
- Proficient in designing and implementing machine learning models for diverse applications, leveraging LLM and other advanced AI tools.
- Knowledge of RESTful APIs and asynchronous programming techniques
- Experience with version control systems such as Git
- Experienced in **Agile** development practices, including **Scrum** and **Kanban**.
- Knowledgeable in **ML/AI**, **Agile**, **Kanban boards**, **Scrum** and **Postman for API testing**.

## PROFESSIONAL EXPERIENCE

### SENIOR SOFTWARE ENGINEER

mobileLIVE Inc.

Mar'23 – Present

ON, CA

- Designed and developed user interfaces for web applications using Angular framework.
- Worked closely with backend developers to integrate front-end components with server-side logic.
- Utilized Angular CLI for project scaffolding, code generation, and build optimization.
- Demonstrated success in building end-to-end machine learning pipelines, from data collection and preprocessing to model training and deployment.
- Expertise in data preprocessing techniques and feature engineering to extract meaningful insights from structured and unstructured data.

### SENIOR SOLUTION ARCHITECT

Snyder Technologies LLC.

Feb'21 – Feb'23

PA, USA

- Generated actionable accounts payable reports, enhancing budget forecasting for senior management
- Prepared and presented financial reports for senior management and external stakeholders
- Improved system efficiency through innovative solutions after consulting with end-users
- Analyzed and reviewed business, functional, and technical requirements

- Ensured efficient and highly available production applications by implementing effective application code patterns and practices

## **FULL STACK DEVELOPER**

Sep'20 – Feb'21  
PA, USA

Snyder Technologies LLC.

- Created a RESTful API that allowed for seamless integration with other applications
- Implemented a micro-services architecture that improved system modularity and reduced dependencies between components
- Refactored legacy code to improve reliability, scalability and maintainability
- Seeing through a project from conception to finished product
- Test software to ensure responsiveness and efficiency
- Write technical documentation and manuals

## **SENIOR TECHNICAL CONSULTANT**

Jul'18 – Aug'20

A. F. Ferguson & Co. (a member firm of the PwC network)

Karachi, Pakistan

- Coordinated with cross-functional teams to prioritize and resolve issues promptly
- Provided technical expertise in supporting development, problem determination, change management, and performance analysis for complex applications
- Developed comprehensive strategies integrating IT analysis with business and marketing methods to enhance productivity and profit margins
- Designed, implemented, and trained bots for business process automation as per requirements
- Analyzed business, functional, and technical requirements for effective implementation
- Ensured efficient and highly available production applications through best practices and code patterns
- Supervised development teams, offering guidance and support
- Communicated technical solution problems to stakeholders promptly

## **TECHNICAL CONSULTANT**

May'16 – Jun'18

A. F. Ferguson & Co. (a member firm of the PwC network)

Karachi, Pakistan

- Perform testing of different test cases to ensure the quality and accuracy of the product
- May be required to be on call to provide support on a need-to basis
- Communicate effectively with clients, suppliers, and industry professionals to maintain complete and current working knowledge
- Collect and analyze data using calculations, graphical projection models, and other methods as necessary to understand current operations and determine areas for improvement
- Implement different modules according to the given document
- Review IT networks according to client requirements to determine and rate overall effectiveness and efficiency.

## **EDUCATION**

- **Master of Science Computer Science (MScS)** from FAST University, Karachi (2017-2020).
- **Bachelor of Science Computer Science (BScS)** from Bahria University, Karachi (2012-2015).
- **Higher School Certificate** from Board of Intermediate Education Karachi (2009-2011).
- **Secondary School Certificate** from Board of Secondary Education Karachi (2007-2009).

## **CERTIFICATIONS/DIPLOMAS**

- RPA Developer Foundation.
- Robotic Process Automation (RPA) Awareness.
